HIGHFIELD

2024 NEW MODELS

#DARETOEXPLORE WITH HIGHFIELD...

Highfield's state-of-the-art production facility is located in Weihai, China. Under European management, Highfield Boats has a rigging facility in the USA with support offices in Michigan and the European head office based in France.

With around 47,000 boats delivered globally since the brand's beginning in 2011, Highfield Boats is now the world's number one in the RIB tender sector and a global player in the 5 metres + sector. Performance and strength have always been at Highfield's core. The brand has focussed on these two key values above anything else. Highfield's hulls are dry-riding, very seaworthy and always over-built.

Their reputation for durability is now world-renowned. The heavy-duty approach to design and build allows both leisure and commercial owners to have the confidence needed to go that extra mile and to tackle conditions avoided by many others. As such, Highfield has been chosen time and again as the support boat of choice for prestigious events world-wide, with fleets up to 50 strong. From Vendee Globe to the Invictus Games, Pan Am Games, Extreme Sailing Series, ORC Championships, TP52 & The Route Du Rhum.

Sustainability is also a huge part of Highfield's DNA. All of the hulls and structures are built in aluminium, which is infinitely recyclable. In addition, Highfield powder coat in an enclosed area to ensure that their footprint remains low from the beginning of the manufacturing process through to the end of each product's life. With now over 48 distributor countries and a worldwide dealer network, Highfield owners can be confident any support they need will always be on hand.

HIGHFIELD IN NUMBERS

1 World's number one aluminium hulled RIB manufacturer.

5 Highfield now have five ranges of RIBS.

37 Highfield has 37 products from 2.2m through to 9m.

48 With dealers and distributors in 48 countries and territories, Highfield Boats has become the top choice worldwide for leisure and commercial use.

2011 Established in 2011, Highfield Boats has developed into a worldwide boat builder with a complete line of rigid-inflatable hull boats (RIBs) .

26,600 Highfield's production facility covers 26,000 sqm.

33 Highfield's turnover was 33 million USD in 2022.

420 420 employees all over the world.

47,000 Over 47,000 RIBS have been sold to date by Highfield Boats

THE ALL NEW

SPORT 560

Highfield’s small but mighty family RIB. The Sport 560 offers more space, functionality and capability than most would expect from a 5.6m vessel. Whether you’re a first-time buyer or just love the flexibility that owning a smaller RIB gives you, the SP560 gives you the confidence to #daretoexplore.

The SP560 allows you to fully maximise your time on those days relaxing at anchor. The bow sundeck provides a space to lie down and enjoy that good book. At the stern the swim platforms with swim ladder offer easy reboarding after a cool swim in the water. The driver & passenger bolster seat has those little details that make a big difference: an alcove in the seat designed especially for your cool bag combined with the flip down table behind the seat lets you enjoy a picnic without taking up valuable space.

The 24-degree deadrise hull is incredibly capable and the 105l fuel tank provides enough range for some serious adventures. Due to its nimble size the SP560 is incredibly easy to tow making this model perfect for those who wish to take their boat with them on road trips to explore further afield.

THE SPECS

STANDARD FEATURES

- ORCA® Hypalon or PVC tube
- Welded seams (PVC)

THE ALL NEW SPORT 800

Designed for you to maximise your time on the water the Sport 800 is Highfield’s elegant, spacious and ultra-capable towable powerhouse. The adaptive seating makes for multiple seating configurations offering incredible comfort and space for all the family to eat and relax. No matter the weather the hard T-top option, along with its LED lighting and speakers, gives great shelter and an enhanced look. For those sunny days, the additional sunshade extension gives further protection.

After easy anchoring with the windlass, the SP800 provides the perfect platform for a day on the water. A fridge keeps your picnic chilled whilst you relax and the stern swim platforms, with 2 swim ladders, make it easy to reboard the boat after a cool swim. At the stern the 4-seater bench converts into another huge sundeck whilst also offering a clean line of sight when making use of the tow post for watersports. Shower off after time in the water with the 30l freshwater shower, integrated in the huge rear locker.

However, the Sport 800 is not just a boat for play. The 26 degree deadrise hull, based on the renowned Patrol hull, will safely navigate you through rough waters. The wide console offers shelter and great ergonomics whilst also giving the option for a portable toilet. The bucket style seating for the driver and passenger provides excellent comfort whether sitting or standing. The large fuel tank gives you the range to feel confident to explore further afield and for those night time adventures, the LED courtesy lighting throughout further compliments the SP800’s luxurious style.

ULTRALITE

VL220

VL240

VL260

VL290

VL310

VL340

FULL COLOUR SCHEME RANGE

The Ultralite Range are single deck dinghies, created always keeping weight in mind. Their light weight make them a real alternative for those who may have chosen a soft bottom tender in the past but would prefer a hard hull for its performance.

Ultralite tenders are roomy and strong, yet light and easy to transport. These little boats can be launched and recovered by a single man and are easy to be transported on a roof rack. The Ultralite's are made of 2.5mm thick powder coated marine grade aluminium for the hull and 1100 Dtex fabric for the inflatable tube.

CLASSIC & CLASSIC E

FULL COLOUR SCHEME RANGE

Classic Range offers extra levels of comfort in this double deck hulled dinghy that will keep your feet dry. The hulls of the Classics are built of 2.5mm thick powder coated marine grade aluminium. The tubes are made of 1100 dtex coated fabric. The high quality finish and luxury look belies the fact that this range of tenders has been designed to work hard. A durable aluminium hull coupled with full length keel guards make these ideal for those beach-hopping days with friends and family. The optional FCT console or GT console options allow forward steering control for increased comfort and greater ease of navigation.

Now, the World's best selling tender now has an electric power option. Our partnership with ePropulsion has produced the perfect silent tender range. From 3.1m-3.8m, the Classic that is loved and trusted by so many will be available with 1-7Kw power options, providing easy charging and ultimate independence for the cruising vessel.

CLASSIC CONSOLE OPTIONS

FCT COLOUR SCHEME RANGE

GT COLOUR SCHEME RANGE

The FCT8 console package is a perfect addition to any Classic 310 up to Classic 380 model giving you an additional level of comfort and enjoyability for your day on the water. The rear bench seat with high backrest and closed cell foam cushions which won't hold water, are perfect for a comfortable day exploring. The console helm is an open style design giving you unprecedented legroom in a boat of its size while a carbon dash with LED switches and branded steering wheel add a dash of style. An electrical package including led flush mounted switch panel, navigation lights and bilge pump are all standard.

The "Grand Tour" GT version console option combines lightweight and performance of the Classic line but with more comfort and styling from the luxury Sport boats for a perfect combination of reliability and styling. The Classic GT is available for CL340 and up, turning the Classic into an easy handling runabout, perfect for having fun when you've anchored for lunch.

PATROL

FULL COLOUR SCHEME RANGE

Patrol range of commercial quality RIBs are designed to work both excellently as a long distance family cruiser or a hardcore work boat. Built to withstand the toughest of conditions. The hull is built from 5083 aluminium plates with 6 and 10mm stringers. With their super deep V, wide chines and large diameter tube, they offer high manoeuvrability, high safety and a soft dry ride even in the roughest conditions.

The range offers something for almost every requirement, from Sailing club support to Police and Rescue applications. The Patrol boats carry large loads and plane quickly and easily with little horse-power. For charter boat and commercial operators, the modular set-up option means that we can build a layout that suits your needs. These boats are ideal pursuit craft or work boats and can be configured with different seating and console options. When safety, toughness & reliability really matter, the Patrol range should be your first port of call.

With MCA rating & commercial coding available, the Patrol range is perfect for commercial chartering or working offshore too.

SPORT

FULL COLOUR SCHEME RANGE

Sport range of high quality boats offers a choice from 3 metres up to 9 metres and combines all of our hull design expertise with an interior that you demand. Nothing has been sacrificed in the design of this range. Top quality materials are the hallmark of what we do and we have not compromised. Hull deadrise angles ranging from 20 degrees on the 3 metre going through to a huge 26 degrees on the 600 and up will give you assurance in the toughest conditions. The additions such as EVA teak throughout, superb diamond stitched upholstery, fridges, showers and bathing platforms on our larger models will allow you to enjoy each day to the maximum.

With the impermeable qualities of our aluminium hulls there's no need to worry about gelcoat chips, or putting the boat on a beach or trailer. All Highfield Sport RIBs are easy to tow, launch and recover due to their light weight and integrated davit lifting eyes. Your Sport will not delaminate or absorb water over time, retaining the same agile performance in 10 years time as the day you collected it.

The Highfield Boats Sport range offers the very best solution for your requirement. Low weight garage tender or runabout, through to an offshore mile crunching cruiser.
